The latest instance in point is the statement of the Pall Mall Gazette, made on the authority of a This latter view, however, is hardly the most correspondent, that "the administration of the colony of Hongkong appears to have been going steadily down hill in all that relates to the native population until it has reached the position in which it was ten years ago, when the feelings, wishes, and rights of the Chinese, who form the vast majority of the inhabitants, were totally disregarded." This is simply a scandalous misstatement both as regards the Administration of Sir ARTRUR KENNEDY and that of Sir Grozos Bowen. The former was deservedly respected and esteemed by the Chinese, who presented him with an elaborate address and an official umbrella on his leaving the Colony; and the latter has uniformly shown a lively interest. and considered all beir wants and wishes most indulgently. When appointing a Chiness member of the Legislative Council means were taken to ascertain the wishes of the principal residents, so that the most representative man should be appointed. The Chinese have certainly not been estentationally fussed with and petted by the present Governor, nor has His Excellency set himself to discover imaginary grievances for them or given them promises he could not fulfil. He has, however, always been willing to allow them any reasonable privilege asked for; and General Cameron, in the absence of the Governor, evinced every disposition to fol. low the same course. But there are abundant signs that the Roumelians and Bulgarians will not stand alone in their struggle with the Ports. When the last mail left, the latest news from Turker was that the whole land was ripe for revolt. A London contemporary says :- "Tue state of affire in Salonica is reported to have become much worse since two months ago the Russian Vice-Consul took a trip into the country, estensibly to see the country, but in reality to urge the Bulgarian peasantry to carry on their agitation by murdering and plundering Mussulmans, by which system it is boned by Russian diplomacy to afford a loophole for has been received to the effect that all Mace-

This, the latest production of Messrs. Gilbert and Sullivan, was first performed at the Savoy was then declared by one of the papers to be a magnificent success. The gifted authors of the opera received an ovation on the occasion. The opera was splendidly placed on the stage, no pains being spared to make the representation complete and offective. The costumes, many of them rich and ancient, were obtained from Japan, and the maidens from the Japanese village in London were persuaded by Mr. Gilbart to go to the Strand and put the Savoy Company through their facings so as to enable them to comport

themselves as Japanese. The following sketch of the plot is taken from The story opens in the courtyard of Ko-Ko's palace in Titipu, a beautiful picture giving the feeling of tropical heat and vertical sunlight, to which the Japanese nobs, who are standing and

Nanki-Poo's hopes are shattered when he hears of Ko-Ko's release and his intention to marry his Yum-Yum with Pitti-Sing and Poop-Bo now arrive from school, and the lovers indulye in some delightful love passages. But even the as he is preparing for his nuptials a letter arrives from the Mikado, who is struck by the fact that no executions have taken place in Titipu for a year, and decrees that unless somehody is behaded within one month, the post of Lord High Excoutioner shall be abolished, and the city reduced to the rank of a village. The above Regulation is not new, but has been the invariable rule of the Post Office for many years. Considerable efforts have been destined to Ports beyond San Francisco made to secure its being generally understood. should be sent to the Company's Offices To prevent, however, if possible, any further disappointment in the matter, it will appear permanently on the Mail Lists issued twice every day from the Daily Press Office.

When Correspondence has been mis-sent or lelayed (both of which are liable to happen occasionally) all that the addresses need do is to note on the cover, Sent to ----, or Received at 7 p.p. of as the case may be, and forward it. without any other writing whatever, to the Postmaster-General. This should be acted on the first time cause of complaint occurs; it is a mistake to let such matters pass for fear of giving trouble, a course which generally gives more trouble in the end.
